論文題目	Deveipoment of a Japanese vocabulary levels test －日本語語彙レベルテストの開発－
論文審査結果の要旨	<p>The whole panel agreed that this thesis was well-written and described an experiment that was well-conducted. The thesis logically explained the basis for the need for further research, thus justifying itself. Mr. Kuroiwa's English was excellent although one or two infelicities in expression were noted. The paper would have benefitted from more discussion of how participants were recruited and their gender and education levels. However, we felt on the whole that it was an excellent paper.</p> <p>平成 31 年 2 月 19 日に、北九州市立大学北方キャンパス本館英米学科資料室において、審査委員全員出席のもとで最終試験を実施して学力を確認し、論文の説明を受け、質疑応答ののちに、全員一致で当該論文が修士(英米言語文化)として十分な内容であると判定した。</p>
